Profile

Motivated and curious Software Engineering Fresher with hands-on experience in building web applications using React and UI/UX design, Tailwind CSS, Node.js, Express.js, MongoDB, and RESTful APIs. Experienced in developing responsive user interfaces, implementing backend logic, and integrating APIs with databases. Familiar with Agile development practices, actively participating in daily stand-ups, code reviews, and collaborative team workflows. Currently learning Next.js to enhance skills in modern frontend architecture, performance optimization, and scalable application development.

Professional Experience

Software Engineer Intern at Neirah Tech Solution (Part-Time) Oct 2025 - Apr 2026

- Worked on real-world projects, including the **Taxi Service application** and a **Herbal website**, contributing to development and delivery.
- Developed responsive front-end interfaces using **React.js** and **Tailwind CSS** and Integrated application features with backend services and **MongoDB**, supporting data handling and validation.
- Collaborated with cross-functional teams in an Agile environment, participating in daily standups, sprint discussions, and code reviews.

Temporary Demonstrator – Software Engineering Teaching Unit (Full-Time) Mar 2025 - Feb 2026 University of Kelaniya

- Conducting laboratory sessions, Coordinating academic modules: Software Verification Validation, Object-Oriented Programming (OOP), Software Project Management and Software Modelling
- Coordinating the full internship process for 3rd-year students: Communicating with companies, Collecting necessary documents forms, Preparing internship agreements, Maintaining internship databases
- Maintaining student attendance records and academic sheets.

Web Developer at Elzian Agro (Part-Time) Jul 2023 - Dec 2023

- Maintained the company website and ER website using HTML, CSS, and Bootstrap, ensuring smooth functionality and visual consistency.
- Participated in Agile development practices, including daily standups and code reviews.
- Performed code cleaning and optimization to improve website performance and loading speed.

Projects

Herbal E-Commerce Web Application Nov 2025 – Dec 2025

- Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB
- Developed a full-stack herbal product website featuring category-based filtering and responsive UI design with secure RESTful APIs.
- Implemented an admin dashboard to manage products, view customer orders, and handle user inquiries/messages.

Beauty Parlour Appointment Booking Web Application Oct 2025 – Nov 2025

- Technologies: React.js, Tailwind CSS, REST APIs, JavaScript
- Developed a responsive web application allowing customers to book beauty service appointments online.
- Integrated REST APIs to manage appointment scheduling and service selection.

Taxi Service Web Application Feb 2026 – Apr 2026

- Technologies: React.js, Tailwind CSS
- Developed a responsive web application allowing customers to book taxi service appointments online.

- Club Management System (Group Project)

Nov 2024 - Feb 2025

 - Technologies: React, Flask, PostgreSQL, Figma
 - Designed a platform for student-club interaction with features like user registration, event management, real-time notifications, and a merchandise marketplace.
- IRemember memorial Application

Apr 2024 – May 2024

 - Technologies: React, Spring Boot, MySQL
 - Developed backend functionality for user authentication and memorial creation, enhancing security and user satisfaction.
 - Styled components with Tailwind CSS for clean, responsive UIs.

Research Publication

- 9th International Research Conference on SCSE 2026

(Paper ID: 335) March 2026

 - "Adoption of AI-Based Career Guidance in Sri Lanka: An Analysis of Education, Region, and Age-Based Needs". Published at the 9 International Research Conference on Smart Computing and Systems Engineering (SCSE 2026), University of Kelaniya, Sri Lanka.
- 8th International Research Conference on SCSE 2025

(Paper ID: 456) April 2025

 - "Micro-Frontend Architecture: A Comparative Study of Startups and Large Established Companies – Suitability, Benefits, Challenges, and Practical Insights". Published at the 8th International Research Conference on Smart Computing and Systems Engineering (SCSE 2025), University of Kelaniya, Sri Lanka.

Education

- B.Sc (Hons) in Software Engineering (Second Upper Class)

(GPA - 3.55) 2021 - 2025 Feb

University of Kelaniya
- NVQ Level 4 – ICTT

2019

National Apprentice and Industrial Training Authority, Kilinochchi
- G.C.E A/L: Physical Science

2019

J/Chavakachcheri Hindu College

Result: Combined Mathematics - A, Chemistry - B, Physics - C

Technical Skills

- UI Design: Figma
 - Graphic Design: Adobe Photoshop, Canva, Blender
 - Programming Languages: HTML, CSS, JavaScript, PHP, Java
 - Frameworks: React.js, Spring Boot, Node.js, Bootstrap, Tailwind
- Database: MySQL, MongoDB
 - Version Control: Git
 - Other: OOP, AWS (beginner), Power BI, Postman (REST API)
 - PM-style: Agile Methodology

Languages

- English [Professional Proficiency]
- Tamil [Native]
- Sinhala [General Proficiency]
